

THE BULLETIN OF THE OKAYAMA UNIVERSITY OF SCIENCE

No. 23 A

NATURAL SCIENCES CONTENTS

SAKAKIHARA, M., NIKI, H., Abdurisit : Formulation of Virtual Viscosity Method for Unsteady State Convective Diffusion Problem	1
OHKAME, M., NAKATANI, M., NAKATU, H : Scatter-Domain of the Ice-Fragment Adhering to the Blades of a Wind-Turbine	11
NAKARIKI, S : Spinor Formalism to the Poincare Gauge Theory	21
TANABE, K : Virgo Infall and the Mass of Local Supercluster of Galaxies	47
MIZOUCHI, M : A Blunder of Quantum Field Theory	53
ISHII, T., NOGAMI, Y., HIRATA, M., NOSE, K., IGI, C., FUJIWARA, F : Heavy Metal Levels in Moss Used as Indicators of Atmospheric Pollution	65
ASADA, N., FUKUMITSU, T., KANEKO, A : Notes on Drosophilid Flies Collected at Orchards and Breweries	75
KANEDA, T : Strain Distribution on Initiation and Propagation of Crack in PVC Shearing Process	91
TAKANO, Y., KITAOKA, M : An Example of Utilization Systems for the Regional Nature Energy	105
TANIMOTO, T : Development of Binder and Lubricant for Alumina Ceramics PVA and Aluminium Stearate Systems	113
OHSAKA, K., DOHTA, S : Flow Rate Control by an On-Off Solenoid Valve	121
IRIE, K : Use of Gamma Distribution to Represent Rainfall Rates	139
TAKAHASHI, N : Measurement of Accelerator Electron Induced cascade showers in Lead with Thermoluminescence Sheet	145
TACHIBANA, H : On Generalized Quaternionic Unitary Spinors	157
TSUKAMOTO, S., YAMAMOTO, K : Pattern Recognition by Grasping an Object with Artificial Fingers	167
NAKAGAWA, K., KURITA, M., AKAO, F : Evaluation of Surface Adsorption Layers using RG-Theory in PAS	177
YAMAGUCHI, T., IMAEDA, K : The Appearance Order and Structure of Oscillation mode of OREGONATOR Exerted by an External Periodic Oscillation Force.	189
YAMAMOTO, Y., IMAEDA, K : Hysteresis Phenomena in the Response of the Oregonator under the Influence of an External Periodic Force	199
UEMATSU, K., HYAKUTAKE, T., NARIHISA, H : On the Efficiency of the RPP Algorithm for Solving a Large-Scale Linear Program	207
OHTERA, H., SHIMOGAI, Y., NARIHISA, H : Studies on Convergency of SUMT Method by Considering Penalty Parameter	223
KATOH, T : Drawing Three-Dimensional Maps by The Digital National Land Information	243
SHIONO, M., ISHIDA, K., ITOH, H : A Study on Artifact Compensation for Computed Tomography Images	257
NARIHISA, H., AOE, T : Studies on Planning for Effective Distributed Data Base	273
MAEDA, K : A Method of Obtaining the Modified z Transformation from the z Transformation	289
YAMADA, S : Optimum Block Replacement Policies for a Two-Unit Paralleled Redundant System with Discounting	299
KAWAKAMI, M., INOKIHARA, K., MATSUBARA, T., OHTA, M : The Correlation between Physical Function and Work Load by Cycle Ergometer	309
